

Nose section

Les the Rat

Cut out and colour mask
page 2 of 2

Mouth

Les the Rat

Mask assembly instructions

1. Print both pages of the mask onto white card.
2. Colour in the head, nose and mouth sections. Our Les the Rat is grey, but you can make him (or her!) any colour you like!!
3. Carefully cut out the eye hole sections, and also make the two small holes in his ears. (These are for the elastic to go around your head!)
4. Carefully cut out around the thick black line at the edge of all of the sections, including all of the tabs.
5. Taking the **nose section**, carefully fold down the tabs labelled A,B,C,D,E along the thin black lines.
6. Also fold **down** the nose along the thin black lines. Fold **upwards** along the blue lines by tabs G and H, and also tabs 1,2 and 3.
7. Following the curved edges of the nose section glue tabs A,B,C,D and E in place each side, to form his snout.
8. Slide the **head section** over the **nose section**, with tabs G And H and 1,2 and 3 on the reverse side. Glue all of these tabs in place on the back of the mask.
9. Take the **mouth section**. Fold up tab F along the blue line and glue onto the bottom of the mask.
10. Nearly there! Finally knot one end of the elastic and thread through the small hole you made earlier, in the ear. Check the length the elastic needs to be to go around your head, then thread through the hole in the other ear and tie this off.

That's it! You can now wear your
Les the Rat mask!

You will need...

2 sheets of white card.

Crayons or paints.

Scissors

Paper glue or double sided tape

A piece of elastic (long enough to go around your head.)
